

## MAQS Beehive Strip Use Feedback

We are gathering some information to better understand how MAQS Beehive Strips are providing an essential tool to beekeepers across the European Union.

It should only take you about 2 minutes to complete our survey, 5 simple questions. Feel free to do the survey anonymously but we would like to know where you hail from!

Confidentiality is important to us at NOD, this surveys purpose is to study this group as a whole, rather than individual respondents. Your name, address, email and information given will stay within our internal organization and partnerships, nothing shared here will be made public.

Thank you for taking the time and sharing your life experience with MAQS.
