

Hive Assembly

Sloping Hive Stand and Sloping Hive Stand with Legs

1. Stand the 3 vertical sides on their bottom edge on a sturdy bench.
2. Place the short side at the back between the rebates.
3. Glue and nail the 2 long sides to the back using 1.5" nails
4. Offer sloping front to the sides, glue and nail with 2" nails. ensuring sides are flush and the top edge of the slope is at right angles with the top edge of the sides. The opposite edge of the sloping front should now be flat on the bench.
5. Check the stand is square.

Sloping Hive Stand with Legs – Additional Instructions

6. When glue has dried, turn stand upside down with the raised front of the sloping part overhanging the bench.
7. Glue and screw, from the outside, one pair of legs into the back corner.
8. Glue and screw the second pair to the front of the stand, locating the front side of the legs directly opposite the top of the sloping front.
